

Introduction

This is Part D of the Guidelines for District Health Planning and Reporting. The Guidelines contain the following parts:

- Part A: Planning and reporting framework
- Part B: Developing plans
- Part C: Preparing Annual Reports
- **Part D: Planning Tools**
- Part E: Key Ingredients for Successful Implementation
- Part F: Definitions and Norms

This part of the guidelines aims to provide district managers with some additional tools for use with planning and analysis. This includes the complete list of references and useful publication for the guidelines.

It includes the following sections:

- Service platform planning
- Problem analysis
- Priority setting
- Choosing service delivery mechanisms
- Analysing the primary health care (PHC) package gap
- Useful publications

This part of the guidelines should help managers to:

- Understand service platform planning
- Analyse problems
- Set priorities
- Choose service delivery mechanisms
- Analyse the PHC package gap
- Access other tools and documents
